

Dear Oyasama,

Thank you for teaching us the joyus life.
Every day I try to live the joyus life by always
having a smile. Thank you also for protect
ing and looking over us. One time I was
in a dangerous situation, but I got where
I was supposed to be really safely. Tha
nk you also for teaching us the service
even though you were arested 18 times
and even though people did not believe.
I enjoy performing the service because I
am able to learn something new about the
instruments. The service is important to me
because we are able to say thank you to
you.

Love,
Akira Iwata
